### Submerge in your favorite tunes, whenever and wherever you want

Add a splash of sound with the new Klip Xtreme **KWS-602** portable minispeaker. Sporting an IPX7 rating, this speaker is specially designed to withstand rain, splashes, jets of water and even immersion (up to 1m). Equipped with the latest *Bluetooth* wireless technology, this portable device not only provides clear and crisp audio, but it also doubles as a speakerphone, allowing you to take calls from your favorite spot in the pool. This lightweight minispeaker combines a built-in rechargeable battery, easy to use controls, with impressive bass for the best acoustics indoors and out, rain or shine.

#### Features:

- Ultra-compact Bluetooth® speaker with a built in microphone, for hands free conversations
- Pairs easily with virtually any *Bluetooth*-enabled devices
- Rugged and water-resistant construction, perfect for the shower, the pool, the beach, or just about any outdoor activity.
- Sensitive touch controls for power, play or pause, volume or track selection, answer and hang up functions
- The built-in rechargeable battery provides hours of playback enjoyment on a single charge
